# Medgre

A solution for all your needs

MedGre is a powerful EHR product for the ambulatory environment with all industry leading features

## Our Solution

MedGre is an easy to use, affordable and feature-rich Electronic Health Record (EHR) software that streamlines the time and effort in maintaining your patient's information. MedGre integrates easily with third party systems already installed in your practice. It also interfaces with billing systems that facilitate the automatic flow of billing data. The result is improved care quality, increased footfalls, and an enhanced cash flow to your practice.

## Why Medgre

MedGre is a complete, certified Meaningful Use Electronic Health Record (EHR) software for the ambulatory environment, that will meet all your compliance requirements for Medicare and Medicaid incentive dollars, whether yours is a Single Specialty or Multi-Specialty practice. MedGre provides a fully integrated software that will meet your needs and exceed your expectations. Our efficient and effective workflows will lead to excellent outcomes for your practice and your patients.

## Efficiency

While ensuring Ease of Use, MedGre EHR captures all aspects of your patient's data, thereby reducing the time, effort and space required to store paper records. The ample use of pop-up screens eliminates the need to go to multiple pages and return. Drop-downs with selectable data reduces the need for re-entry of standard data, and gives you the availability of past and default data for re-use, which will save you valuable time and resources.

## MEDGRE PROVIDES THE FOLLOWING BENEFITS

- MU 2011 and MU 2014 CERTIFIED
- **Increased Efficiency:** The time spent on software per patient is cut down thereby freeing up physician's time.
- **Improved Communication:** Medgre improves your communication by allowing you to Chat and message. Integrated FAX.
- **Efficient Documentation:** Medgre has a library of templates for easier documentation. This eliminates the risk of missing patient information, and also reduces data entry errors.
- **Improved Cash Flow:** Our improved and time-tracked patient care increases patient footfalls.
- **Penalty Free:** Medgre helps you maintain excellent Care Quality and Meaningful Use compliance
- **Interoperability:** Medgre integrates with other clinic software like:
  - **Labs:** LabCorp
  - **Integrating Agency:** LifePoint
  - **Billing Systems:** Medisoft, Kareo
  - **Integration with hospitals & labs:**

### PATIENT DASHBOARD

A very user-friendly interface that lets you enter all patient data like demographics, diagnosis, medication, and lab orders on a single page. Medgre frees you from having to switch between pages resulting in lesser time per patient.

Medgre prompts and guides you through different steps in a process ensuring completeness and reducing data entry errors.

### PATIENT PORTAL

Medgre provides an enhanced patient-to-physician engagement through a very user friendly patient portal. The portal promotes healthcare and makes it easier to perform preventive healthcare. Patients can access their information securely from the comfort of their home or work-place at any time of the day. Patients can view their medical records or communicate with their physician or clinic. The practice/clinic can send patient reminders, statements, patient education materials and lab results.

- Securely communicate with patients
- View medical history
- Post lab and imaging results to the portal
- Send reminder notices
- Post and upload patient consent forms
- Obtain referral requests
- Send appropriate patient education materials directly to the patient

- Enter medical history on-line
- Send messages to the physician or Clinic staff
- Complete New Patient Registration and Patient Pre-Registration
- Medication renewal requests
- Check lab results
- Schedule appointments
- Receive patient education materials

## SCHEDULER

The Medgre Scheduler is a full-featured appointment scheduling system that supports your preferences and workflow. Using Scheduler, you can easily manage appointments for your patients and clinical staff. Some of the important advantages of the MedGre scheduler are:

- **Improved Customization**
- **Simplified User Interface**
- **No Show and Cancellation Management**

## E-PRESCRIPTION

Medgre's e-prescription feature reduces time, paper and associated costs. E-Prescription streamlines operations leading to greater patient satisfaction. MedGre also features e-prescription of Controlled Substances.
